LIFECHARTER COMMAND SUITE · CLIENT WELCOME OVERVIEW

Welcome to your command cockpit.

One place where your mission, your clients, your money and your daily work come into alignment, with your coach, your community and your assistant beside you.

Align your business. Lead your legacy.

A NOTE BEFORE YOU BEGIN

You are not building this alone.

Welcome. I am so glad you are here.

Command Suite was built for founders who are tired of holding their whole business in their head. Everything you need lives in one place now: your day, your people, your plans, your money and the systems that let it all run without you white-knuckling every part.

This overview is a map, not a to-do list. You do not need to learn everything at once. Each page shows one area of the Suite, what it does for you, where to find it, and one simple place to start.

We begin where you begin: with your coaching and your assessments. They are the foundation everything else is built on, so the Suite opens the rest of its rooms once your three assessments are complete.

Take it one branch at a time. I will be right there with you.

THE BIG PICTURE

The whole Command Suite

Ten areas, one cockpit, with Executive Coaching at the center.

WHERE TO FIND IT

The left menu groups the Suite into Daily Operations, Clients & Sales, Alignment & Systems, Settings and Getting Started. Drag sections and pages into the order you use most.

START HERE

Open **Getting Started › Set up Suite**. It walks you through your first steps in order.

YOUR JOURNEY · DAYS 1 TO 30

One small step at a time, with your team beside you.

Inside the Suite: Your First 30 Days

WHAT IT IS

Your first month at a glance. Your setup email arrives within minutes of your account opening, the Starter Guide gives you one small step each day, and your three assessments lay the foundation. Live calls, the New Client Launch Call and check-ins keep you supported the whole way. The dots show who does what: gold is you, teal is the Suite doing it for you, ivory is our team.

AREA 3 OF 10

Run Your Day

Where every day starts, and where nothing slips.

WHAT IT IS

Executive Home and the Morning Brief show what matters today. Daily Compass matches your work to your energy. Every task, reminder and project lives in one list, and Quick Capture lets you jot something down from your phone before it slips away.

START HERE

Open **Executive Home** each morning, and add your first three tasks for the week.

Your AI Assistant

Help that knows your business.

WHAT IT IS

Your assistant reads your own assessments, plans, tasks and numbers, so its answers fit you. Ask it anything, or ask it to do the work: it prepares tasks, contacts, email drafts, posts, SOPs and plan sections, and nothing happens until you press Approve.

Clients & CRM

Everyone you serve, with their whole story, in one place.
